

REVIEW PROCEDURE

1. The Editorial Board of the academic periodical “**Strategic Review**” carries out a preliminary verification of submitted texts to examine their relevance for the profile of the periodical and conformity to editorial requirements.
2. Texts that have been initially approved are submitted for evaluation by two qualified academic reviewers listed as collaborators of the periodical. If a text is written in a foreign language, one of the reviewers is affiliated with an institution abroad.
3. The principle of anonymity is observed in the review process with respect to authors and reviewers (the double-blind review process).
4. The names of the reviewers of individual texts are not disclosed. Once a year names of all collaborating reviewers are made public.
5. During the review process, the following evaluation criteria are taken into consideration: original and scientific character of a text; conformity with the thematic profile of the journal; realization of scientific aims; presentation of scientific problem; usage of scientific literature; justification of statements and conclusions.
6. Evaluation is prepared in a written form, according to the guidelines of the Polish Ministry of Science and Higher Education published in the booklet *Dobre praktyki w procedurach recenzyjnych w nauce* [Good practices in academic review procedures].
7. The review procedure shall be concluded within 3 months.
